Cassels Brock Authors Overview of Construction and Projects in Canada for Thomson Reuters' Practical Law Global Guide

Publish: 03/11/2019

Cassels Brock & Blackwell LLP has again authored the Q&A Overview of Construction and Projects in Canada, as part of the Global Guide series published by Thomson Reuters for Practical Law. Contributors were led by [Matthew Alter](#) and include [Mark St Cyr](#), [Graham Brown](#), [Robyn Blumberg](#), [David Ward](#), [Laurie Jessome](#), [Raivo Uukkivi](#) and [Andrew Reback](#).

The Cassels Brock Q&A gives a high level overview of the main trends and significant deals; procurement arrangements; transaction structures and corporate vehicles; financing projects; security and contractual protections; standard forms of contracts; risk allocation, including liability exclusions, caps and force majeure; contractual provisions covering material delays and variations; contractor payment and security, subcontractor arrangements; licences and consents; projects insurance; labour laws; health and safety; environmental issues; anti-corrupt business practices; bankruptcy/insolvency; public private partnerships (PPPs); dispute resolution; tax considerations; and proposals for legislative reform.
